**\*Note:** The information on this report is compiled every morning at 2am (CST). The report only displays active CAP Airplane/Glider Pilots that are in the MIMS database. The aircraft listed on the report are those in which the pilot is fully qualified in. For instance, a pilot may have completed only an initial in one specific aircraft, but not the annual or questionnaire. That aircraft will not show up for that pilot. There are tasks that each pilot has to have to be a CAP Airplane/Glider Pilot (i.e. FAA Flight Review). Therefore, those tasks are not
